This figure shows a breakdown of users who accessed ICER compute services:

431 users accessed the developer nodes to submit jobs to the queue.

486 interactive users utilized only ICER developer nodes to do their work. This includes users who:
- Only need access to software (ex. Matlab, mathematica)
- Still in the software development process and have not submitted a job
- Find development nodes sufficient for their research.
COMPARISON BETWEEN NUMBER OF USERS USING ICER SUPPORT AND COMPUTE SERVICE

On a typical day, the scheduler processes approximately 116,854 jobs. This includes jobs that are queued, jobs that start and jobs that end. Put in another way, the scheduler manages approximately 81 jobs per minute.
